Join international celebrity psychic medium Melissa Cubillas (MC) for this very special mediumship gallery. During this event Melissa will be delivering messages and connecting audience members with their loved ones in Heaven. Melissa is known for her evidential, accurate, and extraordinary ability to connect with those who have passed. Should time permit, she will take some questions from the audience.

Melissa Cubillas (MC) is an internationally recognized celebrity psychic medium from New York, who has communicated with those in spirit since the age of three. For years MC worked as a celebrity makeup artist by day, and a psychic medium by night. Courageously, she allowed a groundbreaking network television docu-series, "Living Different" on Oxygen, to document the vulnerable unveiling of her abilities to family, friends, and the world. After sharing her truth and witnessing the positive impact of her gift, Melissa chose to devote herself full time to honor her calling. As a psychic medium she assists others in finding closure by reconnecting them with their loved ones in heaven.

By using her gift to provide loving, healing, and evidential messages of comfort for those who have lost loved ones MC has bloomed in her work and is now known as a no-nonsense, spunky, but compassionate psychic medium and spiritual teacher whom everyone can relate to. Today she is a top-rated international celebrity psychic medium, with a loyal clientele ranging from the everyday person to internationally known celebrity actors, musicians, and members of the Royal Family.

Melissa is honored to sit on the Board of Directors for the "Centered Heart Foundation", where she assists, teaches, and mentors kids as they discover their own gifts and develop life skills.

MC can be heard on several top-rated iTunes podcasts including "This Life with Dr. Drew Pinsky, and the award-winning podcast, "Calling Out" with Susan Sailer, in which she connects legendary celebrities with their loved ones in spirit. Her work was also featured on the popular BRAVO series "The Real Housewives". Melissa is a contributing author for several spiritual magazines and blogs, and has facilitated classes across the U.S. and internationally.

Katherine of Light will express multidimensional frequencies and light codes through sound and movement to align, clear, connect, and harmonize the

chakra pillar. The frequencies and codes activate dormant information in you, of you that can heal at the physical, emotional, and spiritual levels. Light Language activations are experiences in opening the memory of YOU by expanding consciousness and increasing source energy flow within your being.

Light Language can

- \* Restructure the energy circuits of the body
- \* Clears karmic energy distortion
- \* Open, clear, connect, and harmonize the chakra pillar
- \* Release built-up energy in the body, mind, and spirit

We will do a group Meditation as we work with an Ocean Indium Alchemy bowl and a crystal grid to create our own group portal of Light/Energy. This will contain our energy in the purest of Love and Light as we weave connection and Oneness within and without. MUST SEE WORKSHOP INFORMATION AREA for tickets and details.

The session will culminate as we send these powerful and loving Vibrations out into the world through a shared singing experience, sounding out in joy and love with original songs composed specially for this event by Gordon.

**ABSOLUTELY NO MUSICAL  
EXPERIENCE IS NECESSARY!**

All are welcome to participate in whatever way is for their highest good in that moment - simply sitting in the resonance of the music, humming quietly, or singing at the top of your lungs! Whatever experience you choose for yourself, know that this is about the Vibration of Love and not about singing "beautifully" or "properly".

So whether you are a trained vocalist, someone who just loves to sing, or have chosen to believe that you "can't sing", this event is for you!

Sheet music and recorded tracks for the songs will be available prior to the Workshop so participants can learn and practice as they feel guided.
